

Graduated International Students met with Rector, PIEAS

Recently, graduated international students from Iraq met with Rector, PIEAS. These international students graduated from Department of Physics and Applied Mathematics (DPAM). The students expressed their gratitude and conveyed their best wishes to their respective departments and the Institute. They thanked focal person International Student Office Dr. Basim Kakahel and Dean Sciences, Dr. Anila Usman for their continuous help and support throughout their stay at PIEAS. They also provided feedback on various academic and residential aspects from the perspective of international students. Rector, PIEAS Dr. Nasir Majid Mirza congratulated the international graduates on successful completion of their degree. He wished that they would serve as a good will ambassador of PIEAS and help them expand the outreach of the institute in their respective countries and workplace. He also expressed his ambitions to accommodate more international students and enhance international student exchange. In the end, Rector PIEAS presented souvenirs to the international students.
